

### Enhancing our Commitment to Safety and Reliability

OEC has been awarded a grant to cover the costs of a new pole and line inspection project. The grant will pay all the expenses of collecting critical data to help ensure the continued delivery of safe and reliable electricity to our members. We are pleased to partner with ClearSight/Zeitview for these inspections. They are vital for assessing the integrity of our poles, crossarms, wires, and vegetation in right of way and it will identify areas that require attention.

As part of the inspection process, we will utilize drones to obtain comprehensive aerial views of our power lines. These drones can cover many miles in a day; they are fast moving and can collect a lot of data in a short time. This innovative approach allows us to quickly analyze where our efforts are needed most, ultimately improving our reliability for you, our valued members. Trained technicians will also conduct on-the-ground inspections of the poles, ensuring a thorough evaluation of our infrastructure.

We expect to begin this project this year after the snow has melted and the vegetation has begun growing. As we get closer to starting, we will send additional communications to you to specify areas and timelines. We ask that as this work occurs, please refrain from interfering with the drone’s operations. By allowing us to carry out these inspections, you contribute to our mission of better serving you and ensuring reliable service.

We appreciate your cooperation throughout this project. If you have any questions or concerns, please feel free to contact us at 607-293-6622 or via email at [memberservices@otsegoec.coop](mailto:memberservices@otsegoec.coop). Your understanding and support are invaluable to us. Thank you!

REMINDER TO APPLY FOR THE:

## MARLETTE SCHOLARSHIP

APPLICATIONS MUST BE RECEIVED BY  
MAY 1ST, 2025!

*GIVEN IN MEMORY OF HOWARD S. MARLETTE -  
WHO SERVED 37 YEARS AT OTSEGO ELECTRIC*

Otsego Electric Cooperative  
P.O. Box 128,  
Hartwick, NY 13348
